

Customers and Partners,

On April 28, 2016, Textura announced that it entered into a definitive agreement to be acquired by Oracle. The transaction has closed.

Together, Oracle Primavera and Textura will form the Oracle Construction and Engineering Global Business Unit offering a comprehensive cloud-based project control and execution platform that manages all phases of construction and engineering projects.

Oracle is committed to protecting and enhancing customer investments in Textura's solutions. By forming the Oracle Construction and Engineering Global Business Unit, Textura management and employees will maintain their focus on serving customers. Oracle's industry organizations maintain unique domain knowledge, specialized expertise and focused product investments, which currently includes more than 22,000 Oracle employees and over \$700 million in annual R&D spend. This model has proven highly successful across several industries, and we look forward to bringing these same benefits to the customers of Textura.

Above all, we want you to know that we truly value your business and partnership and look forward to a successful relationship moving forward. For more information, please visit www.oracle.com/textura.

Thank you for your continued support.

Regards,

Mike Sicilia
Senior Vice President and General Manager
Oracle Engineering and Construction Global Business Unit

Cautionary Statement Regarding Forward-Looking Statements

This document contains certain forward-looking statements about Oracle and Textura, including statements that involve risks and uncertainties concerning Oracle's acquisition of Textura, anticipated customer benefits and general business outlook. When used in this document, the words "anticipates", "can", "will", "look forward to", "expected" and similar expressions and any other statements that are not historical facts are intended to identify those assertions as forward-looking statements. Any such statement may be influenced by a variety of factors, many of which are beyond the control of Oracle or Textura, that could cause actual outcomes and results to be materially different from those projected, described, expressed or implied in this document due to a number of risks and uncertainties. Potential risks and uncertainties include, among others, the anticipated synergies of the combined companies may not be achieved after closing, the combined operations may not be successfully integrated in a timely manner, if at all, general economic conditions in regions in which either company does business, and the possibility that Oracle or Textura may be adversely affected by other economic, business, and/or competitive factors. Accordingly, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what impact they will have on the results of operations or financial condition of Oracle or Textura.

In addition, please refer to the documents that Oracle and Textura, respectively, file with the U.S. Securities and Exchange Commission (the "SEC") on Forms 10-K, 10-Q and 8-K. These filings identify and address other important factors that could cause Oracle's and Textura's respective operational and other results to differ materially from those contained in the forward-looking statements set forth in this document. You are cautioned to not place undue reliance on forward-looking statements, which speak only as of the date of this document. Neither Oracle nor Textura is under any duty to update any of the information in this document.

Oracle is currently reviewing the existing Textura product roadmap and will be providing guidance to customers in accordance with Oracle's standard product communication policies. Any resulting features and timing of release of such features as determined by Oracle's review of Textura's product roadmap are at the sole discretion of Oracle. All product roadmap information, whether communicated by Textura or by Oracle, does not represent a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decision.
